

PDX MINI  
Presents the  
**Drive-In Movie Night**

July 31st, 2010

Now Showing *Eclipse* or *Despicable Me*

Welcome To the Drive-In Theater!

The First Drive-In Theater was invented by Richard M. Hollingshead. He worked out the details by hanging a sheet for a screen in his backyard and mounting a 1928 Kodak projector on the hood of his car to project onto a screen he had nailed to trees in his backyard. After many tests the Drive-In was born.

This movie night is going to be a little more modern (and cost a little more your family if you want for a night at the movies. We might not get than a quarter per person) but it promises to be just as much fun with a little bit of nostalgia mixed in. Bring your Mini and your friends or even those old car speakers but we will still have the concession snack bar reel between shows so it's what you call a real intermission.

**RSVP:** By no later than *July 28th* to [events@pdxmini.org](mailto:events@pdxmini.org).

**What to Bring:**

1. Something to keep you busy while waiting (there is no leaving after paying)

2. Something to eat
3. A Lawn Chair to sit in if you wish to sit outside your car
4. A Portable Radio if you plan on sitting outside your car during the movie

**What Movie?** As with all theaters, they will not have the updated movie listing until a week or two prior to the showing. I will send out an updated flyer with the movie information at that time.
